Conveyor Belt Cleaners

With 140 years experience in the rubber and plastics industry, ContiTech understand the critical role that conveyors play in our customers productivity. Our range of innovative belt cleaning products are designed to optimise your conveyor system reliability and performance.

We are the leading manufacturer of conveyor belts, integrated in the ContiTech AG organization and thus part of Continental AG and Continental Corporation. We offer complete solutions - from textile and steel conveyor belts to special products and service materials. With locations close to our customers, we are able to provide comprehensive support for your conveyor belts and systems worldwide.

With high-end conveyor technology from ContiTech, material handling systems run reliably, cost effectively and are environmentally friendly. As a leading development partner with innovative conveyor belt technologies, we support the mining, industry as well a host of other materials handling segments.

## ContiTech. Engineering Next Level

As a division of the Continental Group, ContiTech is a recognized innovation and technology leader in natural rubber and plastics. As an industry partner with a firm future ahead of us, we engineer solutions both with and for our customers around the world. Our bespoke solutions are specially tailored to meet the needs of the market. With extensive expertise in materials and processes, we are able to develop cutting-edge technologies while ensuring we make responsible use of resources. We are quick to respond to important technological trends, such as function integration, lightweight engineering and the reduction of complexity, and offer a range of relevant products and services. That way, when you need us, you'll find we're already there.
